## PROJECTS

---

<b>SnakeGame-Using-JAVA</b>  The Snake game is a popular retro arcade game where the player controls a snake that grows longer as it consumes apples. The objective is to guide the snake to eat as many apples as possible without colliding with the boundaries of the game screen or its own body.	2024
<b>My Portfolio</b> A personal website showcasing projects, skills, certifications, and tech journey in web development and cybersecurity.	04/2024
<b>to-do-list</b>  A simple and responsive To-Do List application built using HTML, CSS, and JavaScript. Users can add, delete, and mark tasks as completed. The app stores tasks using localStorage, ensuring data persistence even after page refresh.	
<b>wheather-report</b>  <b>Check the Weather</b> – A responsive weather app providing real-time weather updates using the OpenWeatherMap API. Includes city name suggestions, dark/light mode toggle, and works on all devices. Displays temperature, humidity, wind speed, and more. Built with HTML, CSS (glassmorphism UI), JavaScript. Contributions welcome; uses Font Awesome icons.
